Governor,

I would appreciate the opportunity to discuss with you legislation proposed by Sen. Tom Davis. I believe it essential for you to understand the ramifications of the libertarian-derived Bill S-275: South Carolina Fourth Amendment Protection Act (link below).

Ill conceived legislation of this type is not only detrimental to national security, support to US military operations and South Carolina National Guard deployments, but it damages a state's image and can influence defense and other funding in-state.

You may recall that I am a retired intelligence executive now living in Lexington. I can offer you insight on the underlying issues and provide access to intelligence community individuals that will come to South Carolina and give you and legislators briefings with details.

Thank you.
