Subject: Inquiry from WJBF-TV

Ms. Adams,

Good morning. I'm trying to track down some information regarding job creation in South Carolina for a story we're working on. We are based in Augusta, Ga, but serve several SC counties in the Central Savannah River Area. Is there a breakdown on the number of jobs created by county (statewide) since Governor Haley has been in office? I know she has been very successful in attracting and expanding business here - a major example for our area would be the Bridgestone Plant expansion in Aiken County.

If there is another avenue I should take to find this information, please let me know. Thank you for your time!
