Forcing this upon a teen who is already on a emotional roller coaster is clearly a destructive move by medical and family members.

Between violent hate crimes and suicide, the average life expectancy of a trans woman in America is only 32 years. That's appalling. Conversion therapy has never been demonstrated to be effective, it's demonstrably harmful, and it prevents people from getting the help they actually need, all of which contributes to the horrific suicide rate among trans and non-heterosexual youth.

New research in Switzerland and at the National Institute for Mathematical and Biological Synthesis has found that homosexuality is due to an inherited "epi-gene." It has also been found that the opposite sex parent passes on the "epi-gene;" i.e. VP Cheney passed the "epi-gene" to his lesbian daughter, Lynn. Here is but one article on the evolving findings of the source of homosexuality. Please read. <http://www.sciencedaily.com/releases/2012/12/121211083212.htm> Bottom line: only snake oil salesmen believe that there is a cure.
