Subject: Quarterly meetings with PSA Directors

I am so sorry I have not been able to attend the quarterly PSA Directors meetings. These meetings conflict with the SC Primary Health Care Association Board meetings. For the past several years I have been an officer on this Board and will continue to be in the near future. Since CareSouth Carolina is a federally funded FQHC, these meetings hold a vital importance and obligation to attend.

However, the PSA Directors meetings are also vitally important and I want to make sure CareSouth Carolina stays abreast of developments and issues in the Aging Programs. Todd Shifflet is on our Executive Management team and is Director of Community Development. I would like to request that he be allowed to attend the quarterly PSA meetings in my place. He will be ideal to attend in my absence. Todd is very knowledgeable about our ADRC programs within the CSC division of Vantage Point. Additionally he has a broad community perspective of needs and issues. Todd will keep me informed as to PSA issues and concerns.

Thanks you for all you do for the programs serving the elderly in South Carolina,

Ann M. Lewis, CEO
