---

Good morning, were you able to find out any information? Thanks

DV

Wendy, I hope all is well. We've had a couple of constituents mention that the signage and surface markings on SC 153 from the Saluda River, which is the Anderson/Greenville line, to I-185 are inadequate in that the surface paint is very faded where it even is visible and the signage for 185 only mentions Atlanta. Is this something y'all can take a look at? Thanks a lot

Danny

P. S. - We also had a call about signaling at the SC 153/I-85 bridge for left hand turns to enter 85 South. Catherine called over and was told a study was under way. Can you please update me on that?
