South Carolina State Parks

at 12:17:06 on 5/19/2020 UTC · 🌐

Ranger Cathy from Paris Mountain will be LIVE this morning rain or shine at 10 a.m. with her Wet 'n Wild program! Many of Paris Mountain's animals are adapted to life in or near water. Help Ranger Cathy Taylor look for tadpoles, fish, turtles, aquatic insects, and figure out how these animals are adapted to a wet 'n wild habitat. See some of the smaller ones up close under a microscope! Here's a worksheet to help. See you at 10 a.m.

Terrey Mike Streath On opening day, we were confirmed as Ultimate Outsiders at Santee State Park. The ranger sent our picture in the same day. Did we miss it? Thank you for the t-shirts.

South Carolina State Parks Terry, we will take a look and let you know! It's been a little crazy with reopening and it could have fallen through the cracks. We'll look for it! Congratulations!

Ash Anderson It was awesome

at 14:34:21 on 5/19/2020 UTC

Terrey Mike Streath South Carolina State Parks thank you. It's a pretty big commitment to visit 47 parks, particularly the last 4 that we visited mid-pandemic. 😊
