**Subject:** School board member arrested

Hi Rob,

We had a school board member in Lancaster County arrested over the weekend for trafficking meth. I have not been able to track down what exactly would happen as far as his position on the board if he is found guilty. As an elected official, what happens in these situations? And what is the law for situations like this?

Our deadline is around 5:30 this evening. I look forward to hearing from you.

Thank you,

Hannah Strong
