Subject: Bentley White

Catherine , long time no see. I hope you are doing well and not too busy. Bentley White, one of my lawyer mentees has a lot of experience in the realm of public health. She is doing contract work for Motley Rice and is not using her talents. I told her to put together some documents about her experiences so that I could share them with you in the hope that, if you have any openings at DHEC, you might consider her as that is where her passion lies.

Let me know when you are in town so that we can get together and catch up. Thank you so much for reviewing these documents and considering Bentley.

Alice
