Crowdsourcing solutions: If you aren't **sharing your data**, you're missing out. This new communications **network can save lives**. And 3D printing is **saving lives and providing housing**.

Now you're caught up,
Jesse Berst

Meet innovators on the front lines of homelessness at Smart Cities Week SV. As cities the world over struggle to find solutions to homelessness, we're bringing leading human services innovators together at Smart Cities Week Silicon Valley to talk about what's working. Don't miss your chance to hear from public and nonprofit professionals making a difference in communities like yours. Join us May 8-10 at the Santa Clara Convention Center. Register today.

Three ways data sharing is advancing cities. Smart cities are data driven, but all of that data doesn't have to be yours. Read on for three great ideas for learning from other cities and inspiring third-parties to find solutions in your open data.

Big news for cities: first responders to get the tools they need to save more lives. U.S. police, fire and other first responders will get something they've never had before: a dedicated public safety communications network to help them respond more effectively to crisis situations. Read on to learn more.

From medical miracles to affordable housing, 3D printing packs potential. A house in Russia 3D printed on site in just 24 hours -- and costing just \$10,134. Legally blind parents not able to see their baby on an ultrasound feel it instead. Click for more ways 3D printing could disrupt our world in remarkable ways.

Partner Spotlight: News for Daimler, Ooredoo, Oracle, Itron and Enel. Daimler partners on autonomous taxis... Ooredoo begins Oman oil field network upgrade... Itron takes on major utility's AML management... Enel scores Australia solar project. Click the links for details.

Smart Texas Revolution: Experience a smart city. Register for the Smart Texas Revolution April 20-21 in Dallas to be part of crafting a statewide strategy for Smart Texas and to experience a day in the life of a smart city. The event is designed for city representatives and interested citizens, and the Smart Cities Council will present a customized workshop.
