Highways and Public Transportation Commission

Meeting of

May 17, 1990

RECOMMENDATIONS

Highways and Public Transportation Commission Meeting of May 17, 1990

Monthly reports published by the Department of activities for the month of April, 1990 are submitted under separate cover. These reports are for the information of the Commission.

It is recommended that the Commission accept the April, 1990 reports.

PAYMENTS FOR RIGHTS OF WAY ON ROADS IN STATE SECONDARY CONSTRUCTION "C" PROGRAM

Payments have been made for right of way on the following roads in the "C" Construction Program:

April 2, 1990	Project C - Road S-137 - Horry County - James R. Eason, Alice P. Eason & J. M. Long, Jr., Atty.	\$ 750 00
---------------	---	-----------

The above is payment for final and complete settlement out of Court of the right of way Condemnation Case. The Department decided it best to pay the award in order that this road could be built.

April 23, 1990	Project C - Road S-137 - Horry County - Stephen L. Parker	\$ 750 00
----------------	--	-----------

The above is payment for final and complete settlement out of Court of the right of way Condemnation Case. The Department decided it best to pay the award in order that this road could be constructed.

April 24, 1990	Project C-799 - Road S-1324 - Horry County - Jimmy Ray Brown	\$ 3 500 00
----------------	---	-------------

The above is payment for final and complete settlement out of Court of the right of way Condemnation Case. The Department decided it best to pay the award in order that this road could be built.

This report is being made in compliance with Section 9 of the minutes of December 19, 1957.

Recommendations - 05/17/90

Research Agreement with Clemson University to conduct an HPR study entitled "Endophyte-Infected Tall Fescue for Highway Corridors: More Environmental Stress Tolerance and Adaptability."

The Department intends to enter into an Agreement with Clemson University to conduct an investigation into the use of fescue infected with the fungus Acremonium coenophialum on shoulders and slopes along highways in the Lower Piedmont and Coastal Plains. Fescue infected with the fungus needs less water to survive and is tolerant of higher temperatures than uninfected fescue. This could greatly benefit the Department since, unlike bahia or bermdua grass, fescue is a bunchgrass and is slow to invade farmers' fields and private turf along highways.

The study will be conducted over a three year period at a cost of \$51,760. Highway Planning and Research funds will be utilized to defray the cost of the study.

It is recommended that the Commission give approval for the Department to enter into this agreement.

Recommendations - 05/17/90

Agreement With The Urban Mass Transportation Administration

The Department has filed application with the Urban Mass Transportation Administration (UMTA) of the U.S. Department of Transportation to receive and administer the UMTA Fiscal Year 1990 Grant Apportionments. These funds are provided under UMTA's formula and discretionary grant programs and have been authorized by the Urban Mass Transportation Act of 1964, as amended. The funds became available to the State of South Carolina effective October 1, 1989 and will be used to assist public transportation systems.

During the State's Fiscal Year 1990-91, the Department anticipates receiving UMTA's Notification of Grant Approval for the federal funds and the accompanying Grant Agreements of UMTA. It is, therefore, requested that the Commission authorize the Department to enter into written agreement(s) with UMTA to carry out the Department's statewide public transportation responsibility, in accordance with the requirements of the UMTA Section 8, 16(b)(2), 18 and Rural Transit Assistance Programs.

SUPPLEMENTAL AGREEMENT - KIMLEY-HORN AND ASSOCIATES

The Department requests Commission approval to enter into a supplemental agreement with Kimley-Horn and Associates, Inc., to provide services relative to the acquisition of necessary right of way for the proposed Hilton Head Cross Island Parkway on Hilton Head, S. C.

The project will extend from U. S. Route 278 near Spanish Wells Road, continue westerly and southerly to utilize a portion of existing Palmetto Bay Road and end near the traffic circle on U. S. 278.

This supplemental agreement is anticipated to cost \$465,000.00 and will be funded with SHIMS funds.

Supplemental Agreement No. 6
Department and Sverdrup Corporation

It is recommended that Supplemental Agreement No. 6 to the Consultant Agreement dated January 26, 1987 between the Department and Sverdrup Corporation be approved. The effect of this supplement is to provide the Construction Management Services on the Rehabilitation of the Silas Pearman and John P. Grace Bridges over the Cooper River in Charleston County. Due to the size and complexity of the project the Department is not able to handle this project with the present staff in the Charleston Area. The amount of the Supplemental Agreement for construction management services would not exceed \$1,700,633.

Supplemental Agreement, New South Associates

The Department is required to remove an abandoned cemetery within the corridor of the proposed I-85 Relocation in Spartanburg County. This will be conducted according to state laws.

The Commission, on September 21, 1989, approved a contract with New South Associates for archaeological studies of sites along the corridor including this abandoned cemetery. No trace of the cemetery was visible on the surface and archaeological techniques were employed to enable identification of the cemetery location. A Supplemental Agreement has been executed in the estimated amount of \$40,000 with the consultant, prior to formal Commission approval, because work on the existing contract had reached such a stage of completion that the removal needed to be authorized without delay.

ALLOCATION REVISION - 1989-90 STATE CONSTRUCTION FUNDS

It is recommended that the Commission approve the allocation of additional State Construction Funds in the amount of \$8,585,815 on the basis of funds available to release as of April 1, 1990 from cash flow estimates.

It is also recommended that the Commission approve the reallocation of funds for construction work previously approved by the Commission in order to provide matching funds for the Federal-aid program during the remainder of fiscal year 1989-90.

Recommendations - 05/17/90

SALE OF SURPLUS RIGHT OF WAY PROPERTY - LAND

On May 5, 1956, under File 2.389, the Department added to the State Highway System Road S-535 (Highview Avenue) in Aiken County. A 60-foot width right of way for the section of Highview Avenue from West Avenue to Station 20±00 was conveyed by the City of North Augusta.

In 1986, during negotiations with the adjoining property owners for right of way needed for construction of improvements on S.C. Route 230, under File 2.657, it was determined that a portion of the right of way referred to above was no longer needed and an agreement reached for an exchange of properties. Therefore, a gratis quitclaim deed conveying approximately 0.09 acre of land to George V. Walden, was executed on April 24, 1990.

The matter is reported to the commission in accordance with the requirements of Code Section 57-5-340.
