**1.5 CEU's**

November 17th - Capital City Club

Columbia, SC

**Planning for Federal Sustainability in the Next  
Decade:**

*Mapping Key Mandates to Private Sector Solutions*

**Purpose**

-To provide a CEU accredited forum to examine Executive Order 13693 mandates and discuss how the private sector can support federal agencies with solutions to assist in meeting and exceeding those requirements.

**Background**

-Executive departments and agencies of the US Federal Government have been among our Nation's leaders in working to achieve a clean energy economy that will sustain our prosperity and the health of our people and environment for generations to come.

-During March 2015, the President signed and published EO 13693 adding more strident sustainability requirements with the intent to increase efficiency and improve environmental performance.

-EO 13693 is complex and establishes aggressive performance goals that not only impact the Departments and Agencies of the Executive Branch but the Federal Supply Chain as well.
