Subject: Medicare

---

Dear Governor Bryant,

I was diagnosed with cancer and awarded a settlement as a part of a class action law suit. There was a deduction for Medicare Global in the amount of \$4,787.39 and I don't know what this could be for. I have been continually employed by the same employer for over 20 years and still employed and have insurance coverage through my employer. I am 74 still working and Medicare has never been billed on my behalf. Will you please explain this to me.

Thanks in advance for your help and consideration.

Respectfully your,

Robert F. Nealy
