Subject: S 261

---

Frank,

Would you mind asking staff to determine what rate you'd lower the 7% bracket to if you wanted S. 261 to be revenue-neutral? I recognize that this action would affect a somewhat different group than those who will be adversely affected by S. 261 in its current form, and also that the answer is likely something like 6.996%...just wondering, in case we might want to get such an amendment offered. Thanks for your help.
