John – this is the list I gave her. I am happy to update it and quietly get other suggestions, but could discuss with you which ones I know. I put brief info I was given, as many of these I don't know personally, but they have been recommended to me.

If you are interested in any of these, I would be happy to contact them and get resumes – or do anything else that might help you.

I realized there is no one from the low-country on here. Catherine Templeton could probably recommend someone from business. L

Madison - I sure hope this helps! These are suggestions for First Steps.

These have been recommended to me by others in the community to serve on another early childhood committee; where I have information about them I have included it. They may or may not meet your needs for this board. I am happy to get contact information for those I don't have listed below - I didn't want to ask people for contact information right now under the circumstances.

Some fit more than one category:
