OK, just read the NR sheets from SLED. I guess my outstanding SLED question then is on the recurring side... Under CJIS/Fusion...how are the \$188k for OffenderWatch, \$35k for GangNet, and \$15k for GIS Council being paid today?

Subject: Loose End Questions

There are obviously many more metaphysical questions that we can only answer for ourselves, but here are some of the outstanding ones that I think we need agencies to answer for us...

§26 (A&H): For \$56,957 NR request, distinguish between email archiving system costs and digital microfilm scanner

§32 (Voc Rehab): For the \$1M in NRà Recurring conversion...how do the federal MOE rules work? Would cutting the \$1M actually mean penalties, or just match left on the table?

§43 (Forestry): What open-cab equipment remains, and what's the replacement cost for each item?

§61 (CID): Did they already receive money for DUI Defense?

§62 (SLED): Where are the NR sheets?

§65 (Corrections): Is a tower for Lee included in any of the NR proposals, and if not, what would one cost?

§83: (DEW): What, if any, alternate funding sources are available for JAG?
