He's meeting him for coffee this week. He'll let us know what day works.

I have checked the Google calendar and it appears that you are scheduled to be in the pharmacy on Feb. 23 & 24. However, Sunday, 2/25 is open. Please advise.

Please schedule and confirm:

I think it's convention of physicians

"Need to check on the best date for Kevin. We are meeting Feb 23 through 25. Need to talk to him about a preference on topic. On way to Ajerbaijan via Moscow at present. Will call him when I return on July 19. We are looking at a federal mandate that EHR and pharmacy dispensing software automatically query state prescription drug databases and that might be a good use of his expertise as a pharmacist and politically-plus it's a non partisan issue and would be a stride in addressing the opioid problem. Could get him press and TV"
