Subject: The Consciousness Of Man for 6/22/2015

Gov. Haley, SCDEW, SCBCB, US EEOC and SCHAC:

I watched the Sunday Services from Emanuel AME on June 22, 2015 where the Pastor was praising you, forging new partnership and holding leaders accountable knowing they were all lies with regards to your office and cabinet pertaining to Barred From Applying. All would be surprise to know, how assistance were sought from your office against an unjustly actions regarding Barred From Applying but all requests went denied.

I started this fight with SCDEW, SCBCB, Office of South Carolina Governor, US EEOC and SCHAC with regards to Barred From Applying long before the shooting of nine in Charleston, SC which included a friend of mine. The statement does not neglect the serious of shooting nine in Charleston, SC but justice is needed.

What is the consciousness of a person when he or she is not convicted of their actions especially knowing facts, can verify facts and assistance was requested. An evil act was committed against me and many knew who conspired with Barred From Applying.
