Governor – we are still digging for the information. The first product received was only a map of the US with aggregate level data that would be of no use for you. We believe we are going to be able to get the data, but are fairly confident that it only comes out bi-weekly. I want to ensure that it is money paid out since the beginning of the storm.

Can we start getting USDA info added to this report. We need to be tracking status of insurance claims and loans applied for?
