

05/05/2016

To: Governor Mrs. Halley,

My name is Ralph Bell. I'm writing you in reference about my drivers license in South Carolina. I have had the interlock life-saver in my truck for three years and required for seven more months. For the last three months they have replaced the interlock in my truck three times. The State of South Carolina is saying I have had three violations for my breathe test from my interlock. I have not had any alcohol to drink for seven years. The three violations were false readings from the interlock. I was pastries (honey bun). I do not know the last time when it was calibrated therefore, I'm asking you to help me for a pardon for this matter. They want me to have the interlock for four more months longer then the seven months and also they want me to go to an alcohol program within three weeks from now (05/05/16) or they will suspend my license in South Carolina. I have completed ASAP three years ago already. I'm living in Luray Virginia and I want to

get a drivers license here in Virginia.
I'm going to hand in my South Carolina
drivers license to the State of Virginia
the first of June. If there's any way
possible that you could help me with this
matter I would appreciate it. My new
address is 442 Luray Mobile Home Lane
Luray Virginia 22835.
my phone # is 843-333-4079

Thank You!
Ralph A. Bell
