---

Sorry - yeah, if it's not disruptive to what's already prepared, I think it's fine to include the state seal on materials, if you like. In terms of a time before the meeting on the 21st. is there a time on Monday afternoon that might work?

Do you want us to use the sc gov logo or the state seal to be included on the initiative material?

We still need to get together soon (preferably before the 21<sup>st</sup> which is our next team mtg before our trip to Iowa). Let me know what works best for you.

Thanks. EK
