Subject: RNA Therapeutics in 2017 | Updates in Medical Progress

Pushing Medical Progress in RNA: Translating Technique into Therapy

Your Questions Answered:

Now running for almost a decade and featuring a line-up of prominent industry thought leaders and big pharma, SMI's **2017 8th annual RNA Therapeutics** conference will return to Central London to expand scientific horizons on targeted delivery systems.

- Are you looking for new windows of opportunity through updates in emerging therapeutic antisense **oligonucleotides** and **mRNA based immunotherapy**?
- Require **regulatory guidance** on reporting clinical data and drafting successful **patent specifications**?
- Need proven insight through **recent clinical trials**?
- Looking to optimise drug delivery through **new technologies**, such as intravenously injectable nanomedicines?
- Want to learn more on how three dimensional **spherical nucleic acids** (SNAs) are being used to successfully enter cells and tissue topically?
- Have questions on **preventing tissue damage**?
- Are looking to overcome challenges in your journey to **Phase III** clinical trials?

If you have answered **YES** to any of these questions then you need to be at **RNA Therapeutics 2017** for progressive insight into the next generation of antisense. This is our most sought-after event and will be **sold out soon**. **Early registration** is strongly advised to avoid disappointment.

Interactive Workshop:

PLUS: Don't forget to check out the **CPD certified** pre-conference **interactive workshop** for hands on training in moving from bench to clinic.

Tuesday 21st Feb 2016 | 08.30 – 12.30

Precision Nano-therapeutics: Minding the gap in delivery from preclinical studies to clinical success

Hosted by **Professor Andrew David Miller**,
Professor of Organic Chemistry & Chemical Biology, CSO, **King's College London, KP Therapeutics Ltd**

SMI's 8th Annual Event:

RNA Therapeutics 2017

Conference: 22 - 23 Feb
Workshop: 21st Feb

Copthorn Tara Hotel
London, UK

Sponsored by Lipocalyx

HOW TO REGISTER

**£400 earlybird
ends 31st Oct**

Register online at:
