I am assuming these are for the brunch for Nikki? I think I actually like the yellow tulips vs. hydrangeas-they just don't go with golf balls. But daffodils would work too or different colored tulips per table. I was wondering if you wanted to incorporate any of The Heritage colors or plaid? I like the "turf" or some type of grass being used-either on the table or in the arrangement. I also thought the flags were cute-you could number the tables or put the names of your hosts and/or donors on the flags or number your tables- of course the 19th hole should be on the bar. so many ideas!! xoxoxo
