SUPPLEMENTAL AGREEMENT NO. 11  
FIGG & MULLER ENGINEERS

Supplemental Agreement No. 11 to the Consultant Agreement dated June 25, 1982 between the Department and Figg & Muller Engineers be approved. The effect of this supplement is to extend the Construction management services on the I-526 Wando River bridge project in Berkeley and Charleston Counties through February, 1989 if necessary. The amount of the extension would not exceed \$394,558.22.

Construction management services for this project were originally procured through Supplemental Agreement No. 3 and No. 9 with a combined contract limit of \$3,002,307.87. This limit has now been reached. The limit was established from an estimate based on the 30 month construction schedule which was subsequently extended 12 months. Due to the size and complexity of the project and the fact that the contractor will not complete the project until early 1989 an extension is required. The revised limit for construction management services will be \$3,396,866.09. This work is funded under the Interstate Construction Program.
