Subject: Corrected poweroutage info

My error – the State House and Wade Hampton buildings are not part of the power work this weekend.

The Brown building will experience the power outage from 9:00 PM to 1:00 AM. This will disable any network access for the Brown building, the Wade Hampton building and the State House during that time.

I would like to power down all equipment on Friday at 8:30 PM, and have one of the IT staff come in early Saturday to power up all servers and network equipment. Would that be ok to do?
