Good Morning,

After analyzing the HCPCS 2014 file, it appears there are about 90 records that do not have an Action Effective Date. There is also one code (L0651) that does not appear to have a Short Description. Will a revised HCPCS 2014 file be sent? If so, when can this be expected?

Response from Minnesota

The records lacking an Action Effective Date appear to have been added between 1984 and 1998 and have a current Action Code of N – which we ignore. The only code that causes concern is D9210 with an Action Code of C but CDT doesn't reflect a description change for 2014. We can live with the current file.
