Subject: Stuff I Did

Just saved v84 out there:

- EOC now closed.
- WLG now closed, but created NR #52A @ \$200k.
- JDLH closed.
- ETV now closed, with #1539 rejected. They want the money for legislative transparency...can't really use EIA for that, since there's not a strong enough nexus.
- CHE: Accepted #732A. Not sure about the NR stuff yet that's still marked as tentative, but I think we're done with IA, if you want them to get that. Promoted agency to tentative.
- Debt Service – still not closed, but the recurring number won't change...only the NR number may. So if that's good enough for them, they can have that too.
