Subject: Transform Well-Being While Giving Back

Kevin,

Sharecare is the digital health company that helps people manage all their health in one place, driving real engagement and real change. Based on research from the [Gallup-Sharecare Well-Being Index](#), we know that well-being improvement starts at the community level.

And that's exactly why Hawai'i Medical Service Association (HMSA), the most recent pioneer in the #sharecaremovement, has joined with us to accelerate the transformation of well-being in Hawai'i through the launch of a social giving campaign to donate up to \$500,000 to local charities. This innovative campaign, available to all residents of Hawai'i, offers Sharecare's personalized resources and one of a kind tools to help residents improve their health while giving back to local nonprofit organizations. To see the [full story](#).

[Are you ready to join the Sharecare Movement?](#)

Thanks,
David W. Toomey| Senior Vice President, Enterprise
