---

Still a few more agencies to add, but a lot of it's in now. Couple of notes on things I came across tonight:

1. Could you insert DMV's NR requests, if you have those?
2. Can you create a new NR line for School for Deaf/Blind for "Educational Technology" please? \$0 for now.
3. On Awesome, it's showing a \$400k agency request in GF for both Coastal and Francis Marion...shouldn't it only be latter?
4. Clemson PSA - took \$2M out of III and \$1.9M out of IV in rejecting those initiatives. In both areas, I deleted all the Other Operating first, and then applied the rest of the "cut" across classified and unclassified based upon the relative weights of their increase requests. This is really just an FYI...not a request for anything.
5. In DNR, they're shuffling money around. I typed up notes for the GF side, but didn't enter any of them into the underlying tabs yet, 'cause I'm tired and don't feel like thinking about how to deal with all that right now. The NR side I did.

That's about it for now. Not sure if I'll work on this tonight (Thursday night) or not. Leaning towards "not."
