HELP DECLASSIFY: THE KNOWLEDGE OF: DECODING

Implanted in THE BRAINSTEM RESPONSE SIGNAL
Johnstown, PA. FOR LANGUAGE TO COMMUNICATE
Hospitals in
1963 and 1966.

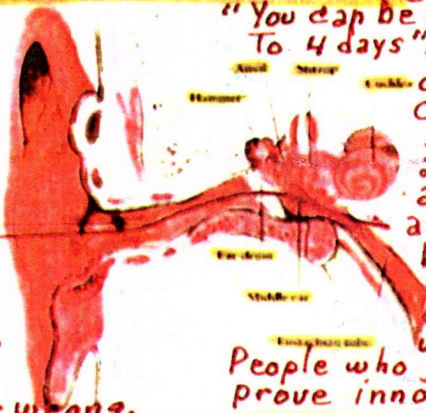

This was done
without my
consent. They
went in through
my ear.

I was born in
1945. Our
Government has
A hard time
owning to their wrong.

OUR FEDERAL GOVERNMENT, IMPLANTED A MULTI-COMPONENT MICROSTRUCTURE ELECTRONIC
DEVICE IN THROUGH MY EAR, WHICH TRANSMITS ACOUSTIC AROUND ME "EXTREMELY HIGH
ACOUSTIC INSIDE" AND THE SIGNAL OF THE BRAINSTEM, PLUS THEY CAN COMMUNICATE BACK
INTO MY IMPLANT "TWO WAY COMMUNICATION" THE ACCOMPLISHMENT MADE I AM DECODED

THEY KNOW WHAT I AM THINKING

Wonderful in.
Crime prevention
"You can be decoded for 1
To 4 days". How about
death row and
court cost?
Approximately
20,000 Americans
are murdered in
an average year.
What percent
can be prevented?
No electrocutions
until decoded.
People who just want to
prove innocent of anything.
