Subject: Hi Kevin

---

Kevin,

Another dead end with Senator Alexander's office. Basically the investigator contacted CVS and saw them as right, me wrong and said I need

An attorney. That's the whole thing I've consulted numerous ones that don't know how to handle the case. One in VA that handles Consumer Report Cases says I'm the only pharmacist he's seen on the database. Can you speak with Senator Alexander on this again? I can't get hired, can't get help. I have to live with no power, no water, bed bugs and facing losing my home I've paid on 17 years. And they don't think my story is worthy of political involvement. I turned to the political realm because I have had absolutely no voice.
