Subject: USC project

Marcia,

Sorry to,press this too much.I haven't yet received the package that you were to sent me about the unsolicited bid.Thats one of the baseline measure with which we wanted to do a financial comparison to the proposed call centers.I am also trying to get something similar from another private call center hosting company and so I need your package to get insights on the the differnt issues I need to raise with him. We therefore need it urgently especially in view of the long weekend coming up and the deadline looming large.

Thanks for all your efforts and time and once again sorry to press this further .

Sincerely
Shankar
