Subject: Re: SCE & G and Dominion Energy merger

Dear , I only support making the ratepayer whole. I also support opening up our energy market to consumer choice as exists now in TX, PA and FL. I also support selling Santee Cooper but only after it is rehabilitated and properly valued.

Subject: SCE & G and Dominion Energy merger

From what I have read for both sides. It seems pretty straightforward for your South Carolina voters to move forward and approve the merger between SCE & G and Dominion Energy. Besides the lower rates and receiving a check. I am really concern about having to pay for many years to come for a failed nuclear project. To me its nothing to do with the employees, just bad management and decisions on the top that voters had no say in and should not have to pay for so upper management can enjoy their income. If they make poor decisions or bad management , (nuclear plant closure of construction), why should they go without consequences. To me to help your voters and the state of South Carolina we need the merger. Thank you in advance for pushing this through, Joel Hamburgh, Summerville SC.
