Re: James H. Markley V for admission to Clemson University

Dear Admissions Appeals:

I am pleased to write a letter of recommendation for Mr. James H. Markley V for admission to Clemson University.

As a second-generation small business owner, I appreciate James' dedication to his family's agriculture business. While a student at my alma mater, T. L. Hanna High School, James has always challenged himself academically and currently maintains over a 4.1 GPA. James also excels in athletic activities. He has played on the Varsity Golf Team for the last four years. His ability to find a balance between academics and athletics demonstrates that he possesses both diligence and discipline, which will make him successful at anything he puts his mind to. These skills will serve him well at Clemson University.

James serves his community as a Meals on Wheels volunteer and by participating in various charitable efforts that help others. I trust that James will share his servant's heart with the community at Clemson.

I appreciate the appeals committee at Clemson University granting James its full consideration, and I look forward to his enrollment at Clemson. I am confident in James Markley's ability to excel in your program.

With warmest personal regards, I remain

Sincerely,

A handwritten signature in blue ink that reads "Kevin L. Bryant".

Kevin L. Bryant
