Crystal Distribution, Inc. launching operations in York County *Manufacturer investing \$4.8 million in new operations*

COLUMBIA, S.C. - [Crystal Distribution, Inc.](#) (CDI), the largest manufacturer of curb adapters in the nation, is establishing new operations in York County. The project is expected to bring \$4.8 million in new capital investment and will allow the company to relocate existing positions from its operations in Charlotte; the company will also add new jobs to create a total of 83 positions in South Carolina.

Established in 1994, CDI is the leader in the curb adapter industry with both the fastest lead times and the largest quantity of curb adapters produced. Curb adapters allow broken or inefficient heating and cooling units to be upgraded on commercial building rooftops. Featuring custom manufacturing options, including same and next-day build, the company offers record shipping and delivery times with a 98 percent on-time delivery rate.

To establish its operations in York County, CDI will be constructing a new 50,000-square-foot build-to-suit light manufacturing and distribution facility in Rock Hill's SouthCross Corporate Center. Construction of the new facility is projected to be completed in the first quarter of 2017. Hiring for the new positions is expected to begin in the second quarter of 2017, and those interested in joining the CDI team should visit the [company's website](#) online.

The Coordinating Council for Economic Development has approved a Set Aside grant of \$300,000 to York County to assist with the costs of site preparation and building construction.
