Will photos of the sites be posted within the reservation site soon? Or maybe I missed them under "site details"?

Do you have any kind of timeframe? I am thinking about making a reservation but I would need a shady site. Would it be better to just call the park and inquire about a shaded site recommendation, or would you expect photos within the next week?

I can tell you that there are few trees in this campground. Yes, you may call the park for more information. I hope to have photos in the next two weeks.

Thanks so much for the info! I spent many happy summer vacations on this end of the park, and I couldn't be happier to see it open again!
