Hon. Nikki Haley  
Governor, South Carolina

Subj: Your political future.....

Dear governor Haley:

I am sorry to note that you have not taken the opportunity to endorse Trump before the Florida primary. That would have got you back in high priority for VP nomination. He is now odds on favorite to be the GOP nominee and your chance has slipped away.

You should now endorse him and apologize for previous criticisms. It is not that hard to do.

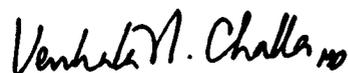

In my opinion, you will be the prohibitive favorite for VP candidate (although Ted Cruz will likely have strong position if Trump doesn't get to 1237 votes) if you play your political cards correctly.

Endorse him, criticize party establishment figures like Romney and Graham for unloading on him, and you will be back in contention for the VP position.

In politics, timing is everything. Sometimes, it is the only thing. For poor Marco Rubio, the timing of his run was bad.

You could be a strong POTUS candidate in 2020 or 2024, if you play your cards right. I would be proud to see you do that and/or help you do that. My own potential is 2XKarl Rove+David Axelrod. With an advisor like me, it will be smooth sailing all the way to the first woman POTUS.

Sincerely,

Venkata R. (Ven) Challa, MD
