WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

City CIOs: Year's biggest tech announcement? Big Data is simultaneously the most important and the most confusing aspect of a smart city. The path forward may just have gotten simpler, thanks to an important announcement this week from IBM. Get the details. **MORE >>**

Why CH2M is a water reuse superstar: The Colorado firm won the 2015 Stockholm Industry Water Award for developing and advancing methods to clean water and increasing public acceptance of recycled water. Learn how CH2M's work in cities worldwide has created an opportunity to close the urban water loop. **MORE >>**

The real brains behind smart cities: Smart cities are powered by technology, but the real power comes from how citizens use it and how it makes their lives better. See why a Schneider Electric exec says open data and a citizens-first mentality are keys to success for any smart cities initiative. **MORE >>**

Survey: Where cybersecurity and intelligent transport intersect
ENISA, the European Union Agency for Network and Information Security, is conducting an online survey to collect input that will help identify ways to enhance security on public transport in the EU. Take the survey >>

TOOLS & RESOURCES

5 useful additions to your smart city toolkit: Drill down on your locale's disaster history with a new FEMA tool. Get a free trial of a weather alerting system. Browse a global registry of urban sustainability rating tools. Get details on these (and two more) at the site. **MORE >>**

8 cities reinventing civic tech: Code for America (CfA) revealed its latest lineup of apps from eight cities working with CfA technologists this year. Still works in progress, the apps take innovative approaches to economic development, healthcare and more. Get a rundown of what the eight cities are up to. **MORE >>**

WORTH WATCHING

Double dose of smart energy: Electric vehicles are good for the environment. Solar energy is good for the environment. Now Daimler AG sees a bright future in the energy storage market, using batteries that now power Mercedes-Benz EVs to promote sustainable solar power. Get the details. **MORE >>**

JESSE'S PICKS

Partner Spotlight

We are all fortunate that some of the best and brightest minds are focused on the future of cities. I'm reminded of that when I look at the partner roundups our web team puts together. Here's today's:

Qualcomm takes on the 1000x mobile data challenge...

Veolia will operate Ireland's largest biomass plant...

Enevo pilots its smart waste bins in Washington, D.C. area...

ABB strengthens the electric grid in New York, Massachusetts...

Saudi Telecom gets a nice shout-out from the UK Telegraph...
