Subject: Editorial on SC education

Mr. Bryant,

Very disappointed in your editorial in the paper this week bashing out public education system when you home school your kids! Our teachers and principals do an outstanding job, and after spending 4 years on Anderson County School District 2 School Board, I appreciate what our teachers do more everyday. My mom was a first grade teacher for 37 years, the reason I wanted to serve on the School Board, but you are a disgrace to Anderson County for what you have printed in the paper.

I have copied Senator Gambrell and Rep West on this email because they have supported public education and I am very proud of them! You will never get my vote bashing public education because I never made good grades in high school, but one day I woke up and realized that I was at Clemson University and I have been successful businessman in Anderson County for 30 years now. Public education was not why I made bad grades, I wanted to play golf more than study. In a young man life at 16 - 18 there are many reasons for bad grades, but public education and the teachers are NEVER the problem!!

Good luck on your election,

Kevin T. Craft  
IMS Belton - President
