Missing out on street light benefits? 3 fresh ideas from Copenhagen

Copenhagen is already one of the world's most sustainable cities, but it has an even bigger vision: to be completely carbon neutral. See how many different things it's doing with smart street lights from Silver Spring Networks and why they play such a key role in reaching its sustainability and livability goals.

How Jaipur got ahead in the race to create innovation zones

While India's central government works toward its goal of 100 smart cities, some cities and states are taking matters into their own hands and striking out on their own. Read our story to learn how the city of Jaipur is developing a smart city infrastructure and services – with considerable help from Smart Cities Council partners Cisco, GE and Qualcomm.

Want more investment? What you can learn from Asia's top 2 cities

Every city would love to boost economic growth, but what's the best way to do that? There are some strong lessons in the latest ranking of Asia-Pacific Cities of the Future. See how Singapore once again maintained its firm grip on the top spot — and how Tokyo jumped from ninth to second in a single year.

Why it's time for your city to reconsider co-generation

Veolia is bringing its energy management experience into a partnership with Finnish oil refiner Neste and an Austrian petrochemical company, Borealis, to build a CHP plant which will supply power and steam for Neste and Borealis. Read the story to learn about the secure, safe, efficient — and cleaner — power plant they're building.
