FOOTBALL

Dear Governors + Michael -

Thanking you personally for your special honor for Steve and our School.

But, this is truly an honor for our State and its economy! Football is the ^{spot} genesis of our State economy - all football! It makes the University better, as it keeps from more excellent more buildings, more improvements in facilities and professors.

And the economy of happy people - (on Monday going to work) spending more - life is good for our State + economy when football is a successful thing in all of our colleges.

We appreciate you both in the truly honest, loving thing you do for our State.
With love + appreciation,
3/2/71
