Dear Governor Haley,

Our President is determined to turn his back on his Oath of Office, where he swore to protect the American people against all enemies both foreign and domestic, by continuing to bring in Middle Eastern refugees we know nothing about!! He claims that they will be properly vetted, but any reasonable person knows that is not possible!! The only answer to this is to set up a safe zone in Syria for these refugees protected by the world community !! "Please" follow the example of Texas governor Greg Abbott and refuse to take ANY of these refugees, a people who will not assimilate, and, who pose a danger to us and our way of life!!

Respectfully yours,
