Subject: RE: What should I send to Mr. Crunkleton?

Katherine,

Below is the response I thought about sending Mr. Crunkleton. However, he specifically asks if Senator Davis would sponsor a bill that would extend credit monitoring to 5 years.

Is this something that someone in the Senator's Office needs to respond to, or is the response below OK? (I have previously spoken with Mr. Crunkleton on the phone about the same issue 2/8/13.)

Thanks,
Chrystal

My name is Chrystal Laughlin. I am currently helping constituents with questions and concerns regarding the Department of Revenue security breach. I received your e-mail from Senator Davis.

The State is discussing the extension of credit monitoring or providing tax deductions for those who would like to continue credit monitoring after the one year is over. Below is a list of bills proposed by members of the General Assembly regarding these topics. If you are interested, you may track the progress of these bills at <http://www.scstatehouse.gov/billsearch.php>.

Bills Proposed

This is an email Senator Davis received regarding identity theft and the coverage the state has offered.

Please copy our office with the response given to Mr. Crunkleton.

Thank you.

Message

we all try to guard our personal data. I think I try even harder than most. So when I learned that my SS# and my wife's were part of the info hacked into through our dept of revenue. I was more than a little upset. My law we must pay our taxes, and you expect they will guard the personal info that goes with the tax return, That was not the case. So what is a person to do?

We have protection thru Experian giving us alerts etc, but that is only for 1 year. After that, I must purchase this protection (as I understand it) if I want to continue this service. However the bad people that have my personal info have it forever. This does not sound like a good deal for me.

Senator Davis, I would expect that the very least I get this same Experian protection for at least 5 years. Of course it will be a cost to the State (and that means us). However this cost was brought on by the state itself.

I would like to ask that you introduce a bill that will extend this protection for those of us who had their personal info stolen because of the inadequate protection given to that info by the state.

Please let me hear from you on this matter, and please be candid in your response. Either say you will do it or not. If not please tell me, honestly why not. I am a big boy. I can expect the truth. I may not like it but I prefer straight talk. Thanks Paul Crunkleton
