Subject: For your consideration

---

Gavin-

Two quick corrections- that if at all possible we would like to see made in your story.

In your story, it says:

"Sometimes the campaigns and organizations Haley visits cover some of her security expenses, records show, while other times expenses are reimbursed by her fundraising accounts or taxpayers cover the bill."

However:

Taxpayers do not cover the costs of security for campaign-related events. Pursuant to the MOA, those costs are reimbursed.

=====

In your story, it says:

"That is the result of a deal between the governor's office and State Law Enforcement Division made in 2013, shortly after Haley was in a North Carolina fender-bender while campaigning for Gov. Pat McCrory in a South Carolina-owned car."

But that omits the State Ethics Commission's role.

The MOA is an agreement among the governor's office, SLED and the State Ethics Commission.
