Comments:

This is a suggestion but it may require legislation so we may not be able to do this.

Well we have quite a few customers that have several vehicles that expire at different times during the year and they ask can we change there expiration date to expire at the same time. Now everyone would not want this but for those that would, we could offer this service for a small fee. Some of their vehicles would need to have updated property tax receipts but afterwards, their taxes and tag would all be done in the same month every year.
