Nat

I'm not sure how the CIO folks will react but I can make it to the meeting. No matter what happens on the Board I still think you all need your own quality assurance/risk management contractor. Funding it might be an issue now with Henry gone but I don't think that should be a "show stopper". Could one of your folks get me a space for that afternoon in that open parking lot on Assembly that we used for GEAR meetings?

Thanks. See you next week.

Mike,

I appreciate all of your efforts in the last several months in putting together the GEAR Commission report. If you have any time, the SCEIS Oversight Committee meeting is next week. I look forward to seeing you if you can make it.

Best regards,

Nat Kaminski
