The Honorable Nikki R. Haley
Office of the Governor
1205 Pendleton Street
Columbia, SC 29201

Dear Governor Haley:

Re: Pain-capable Unborn Child Protection Act (S0626/H4223)

A few weeks ago, a poll done by Winthrop University was published in our local paper. If I recall correctly, the poll indicated that more than 50% of South Carolinians favored some type of abortion on demand.

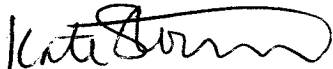

I am very skeptical of these results. The pollsters were affiliated with a progressive university and published by a blatantly pro-choice newspaper. What questions were asked and how were they worded? Ambiguous questions often skew polling results.

It seems the timing of the poll and its publication was tailor-made to discredit the Pain-capable Unborn Child Protection Act!

I favor this bill and would like it to pass!

Please don't be swayed by questionable polling practices. Vote in favor of H4223/S0626 and do everything you can to make it become law!

Thank you,

Katie Storms
