It's #WildlifeWednesday! No better day to check out this cool trailcam video captured by Ranger Ann and Scott at Myrtle Beach State Park. It's a barred owl wondering -- WHO are you looking at? What a magnificent creature, and just one of the many creatures that call our parks home.

Paula Moore Harrington I have a cool boss who has given me permission to have a few windows open as long as my work is done and this is one of my runaway spots when I have time off. I wish they had a cam at Huntington.
