Subject: HUD request

---

Has she made a request for HUD money related to Hurricane Matthew and the subsequent flooding?

No.

If not, does she plan to make a request?

On background: More than \$600 million in resources - including FEMA Individual Assistance grants, SBA loans, insurance, and private donations - have been made available to South Carolinians who have been impacted by Hurricane Matthew. Working together with our Disaster Recovery Office intake centers and FEMA Individual Assistance we will get a better understanding of any remaining unmet housing needs and then make a determination on how best to meet them.
