**The Show Floor Experience!**

## **Think your smartphone is tiny? Think again!**

Each IoT Emerge attendee will have the opportunity to build a Tiny Arcade, created by Tiny Curuits, to relive the golden age of video games with an arcade cabinet that fits in the palm of your hand. It features an OLED screen, comes pre-loaded with three games, has a microSD card expansion slot, and you can create your own games for it too!

## **Come Fly With Me**

Do you watch ABC's Shark Tank? Then you might be familiar with the drone start-up xCraft that manufactures XPlusOne—a drone that can hover like a quadcopter and fly like a fixed-wing aircraft. Come down and check out the drones that made Shark Tank investment history receiving offers from all five "sharks."

## **Indoor Graffiti is Good for the Soul**

Like to color? IoT Emerge has collaborated with Ava Grey Designs to create a mural incorporating the city's skyline with characteristics of new and emerging technologies to capture Chicago's history and future plans to become a Smart City. Stop by to help complete the mural and get a copy of the print on a t-shirt.

---

## **Are you seeing double or in 3D?**

3D printing is changing the way we think. IoT Emerge is working with The 3D Printer Experience, a registered Benefit Corporation in Illinois, to provide attendees with an overview of this new interactive printing experience. What's really cool is that you can get a 3D version of yourself made! (will be mailed to attendees after the event).
