**scstateparks** Wildlife Wednesday! While thankfully this Puma isn't roaming through a state park, you can see this beautiful animal at Charles Towne Landing's Animal Forest! Pumas typically weigh anywhere between 110-130 lbs and can run up 50 mph. 📸: @darthpizza01

**trevorpsc** Pumas top out around 40-50 MPH. The Cheetah is the fastest which tops out at 65-70.
